

# **FORISK NORTH AMERICAN TIMBERLAND OWNER & MANAGER LIST**

## **Frequently Asked Questions (FAQs)**

### **What owners are included on the list?**

Private individuals, corporations and institutions that own and/or manage over 100 million acres of private timberlands in the United States and Canada. While the primary focus is those owning or managing 25,000 acres of timberlands or more, the list includes dozens of ownerships between 10,000 and 25,000 acres.

### **How is the data collected?**

Data comes from tax assessors, company websites, published portfolios and investment reports, forest certification reports (SFI and FSC), news articles, field research, conference presentations and direct communications with owners and managers

### **How often is the data updated?**

Forisk publishes the updated Forisk Timberland Owner & Manager List in conjunction with the Q2 *Forisk Research Quarterly* report each year.

### **What information is included about each timberland owner?**

Firm/organization name; type; total US acres; total Canadian acres; designated Timberland Owner and/or Timberland Manager; headquarters; designated US North/South/West or Canada location of ownership; key contact name; key contact email and/or phone; mailing address; and to the extent possible, specified acreage by US state.

### **What is the format of the list?**

The list is a downloadable Microsoft Excel file.

### **Where can I go for more information?**

Subscribers to the *Forisk Research Quarterly* receive the Forisk Timberland Owner & Manager List as part of their annual subscription. The List is also available for stand-alone purchase from Forisk's website ([www.forisk.com](http://www.forisk.com)) under the Products section. You may contact Heather Clark for more information at [hclark@forisk.com](mailto:hclark@forisk.com) or by phone at 770.725.8447.
